

Date	Release Version	Sprint	Task	Hours Estimated	Hours Logged	Status	Responsible
4/8/17 - 4/9/17	V0.5	Start setting up basic structure xml / Set up project, go through tutorial	Start designing the GUI / Set up project, go through tutorial	2	2	Complete	Team
			Adopt Setup	1	1	Complete	Sarah
			Main Page Setup	1	1	Complete	Sarah
			Sleep (Timer) Setup	1	1	Complete	Jingya
			Timer - Notification when switch out	2	4	Complete	Sarah
			Vocabulary Setup	2	2	complete	Haoyu
			Vocab Study/Review Setup	1	1	complete	Haoyu
			Store Setup: Add drag and drop feature	2	2	Complete	Gade
			Stats page Setup: Swipe View with three tabs	1	2	Complete	Sarah
4/10/17 - 4/15/17	V1.0	Backend Development: Count down timer; Tracking steps; counting coins and health points; reading vocab library	Add icon library	1	1	Complete	Team
			Main page: Keep track of the coins and health points and Cat	2	4	Complete	Gade
			Main - Add Navigation Drawer	2	2	Complete	Jingya
			Vocab - Import excel for vocab	1	0.5	Complete	Haoyu
			Vocab - Update Progress	2	4	Complete	Haoyu
			Vocab- Construct Basic SQLite database for vocabs	2	4	Complete	Haoyu
			Vocab - Random select vocabs to study	1	1	Complete	Haoyu
			Vocab - Keep Track of Vocab studied and current studying	2	4	Complete	Haoyu
			Store - add icons for food	1	1	Complete	Gade
			Store - appear in inventory when bought	1	2	Complete	Gade
			Stats page: Keep track of steps with google fit	2	5	Complee	Sarah
			Stats: keep track of time and devise stats into days and weeks	5	5	Complete	Sarah
			Timer - Countdown functionality, start, pause, and cancel	2	4	Complete	Jingya
			General - Creating class for store, items	2	2	Complete	Gade
			Intergrate stats with setting goals	1	1	Complete	Sarah
			General - sound effects	2	4	Complete	Cade
			Main - feed cat	4	4	Complete	Cade
			Vocab - Implement methods for vocab databases	3	5	Complete	Haoyu
			Vocab - Create Connection for all the classes related to Vocab	2	3	Complete	Haoyu
			Vocab - Implement Learning curve	1.5	1.5	Complete	Haoyu
			Vocab - Set up Database Manager	1	2	Complete	Haoyu
			Text animation	2	1	Complete	Cade
			Store - redo Store gui	4	4	Complete	Cade
			Timer - Add countdown in push notification	2	4	Complete	Jingya
			Add Cat image and animation	2	2	Complete	Sarah
			Start instrumentation test	4	4	Complete	Sarah
			Settings - Add setting activity and update User class accordingly	4	2	Complete	Jingya
4/20/17 - 4/23/17		Phase 4:	Main - convert user stats and display cat properties	4	4	Complete	Jingya
			Vocab - Create Question class and Quiz class for Vocab learning	2	3.5	Complete	Haoyu
			Vocab - Implement corresponding Vocab activities	4	3	Complete	Haoyu
			General - background service to keep track of new day	2	2	Complete	Jingya
			General - resolve lifecycle problems	2	2	Complete	Jingya

4/24/17 - 4/27/17			General - refine GUI	8	8	Complete	Jingya
			General - Sprint / burndown chart	5	5	Complete	Cade
			General - Finishing UML	2	2	Complete	Jingya
